GLASS BALUSTRADES | BALUSTER RAILINGS | HANDRAILS

Where Promises Turn Into Results

As balustrade specialists, we provide complete support at every stage from initial planning to the final installation. Whether you're ready to place an order or need a customized solution for your project, our team is here to guide and assist you.

Planning

Support

Ready

Success

From the initial concept and detailed design to expert guidance and final installation, we ensure every step of your project runs smoothly and delivers outstanding results.

From the earliest planning stage to the final finished result, our team ensures every aspect of your balustrade project is handled professionally. We provide technical guidance, customized design options, quality materials, and precise installation to guarantee a smooth and successful outcome.

И Metal

Metal

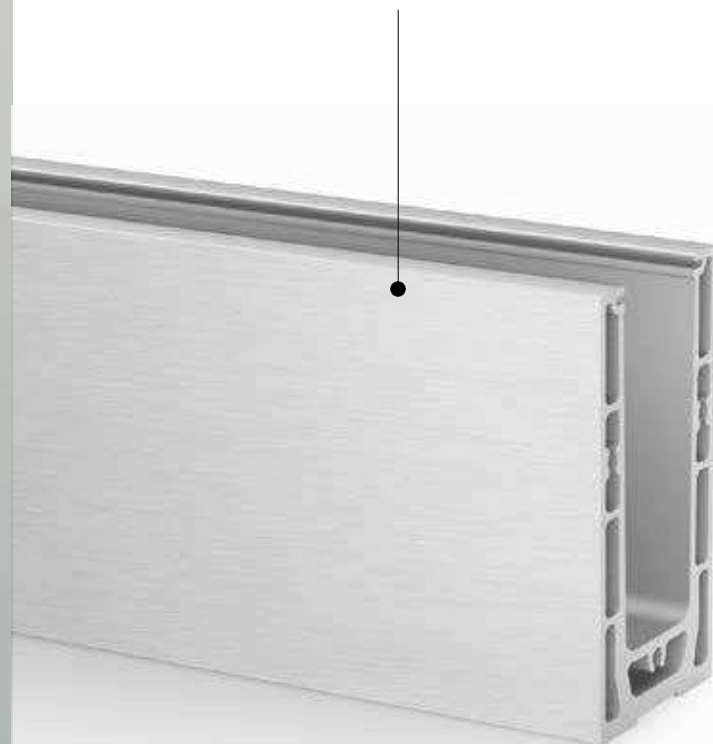

Strength in Safety, Beauty in Design

Our balustrades are built to deliver both protection and style. Designed with precision and installed by experienced professionals, they provide reliable safety while complementing your architectural design. We offer multiple styles, materials, and finishes to suit every project and budget.

HH Metal

All base shoes are available with the adjustable or non-adjustable System.

Reliable support from idea to finished result.

As balustrade specialists, we provide complete support at every stage of your project from initial consultation and design planning to precise fabrication and final installation. Our experienced team works closely with you to understand your requirements, deliver customized solutions, and ensure high-quality results that meet both safety standards and aesthetic expectations.

HH-GLASS

Order glass at the same time as you order the rest of your railing

Glass from stock

- Available immediately
- Toughened laminated glass
- 8,76 - 16,76 mm, 10 widths and 3 heights
- Smooth, arised and polished edges
- Rounded corners

Bespoke made glass

- From monolithic glass to 31,52 mm toughened laminated glass
- Optional coloured or SentryGlas® interlayers
- Radius corners and polished edges on request
- Optional pre-drilled holes

- CE marked
- High quality
- Accurate delivery times and notification
- Clearly quoted competitive prices
- Straightforward ordering

Powder coating

Conveniently add powder coating when you order base channels, tubes, end caps or any other components you want to customise with colour. Choose any RAL colour you like.

Prefabrication

Bending

We can carry out 2D or 3D bending to order on tubular components, cap rails, U-profiles, edge protection top rails and even base channels. This meticulous service will ensure that you get exactly the sizes and deflections you need.

Cutting and drilling

For maximum convenience, ask us to pre-cut stainless steel, aluminium or wooden products. We can also drill and tap the balusters or handrails based on your exact specifications.

Welding

On rare occasions, HH-railing's standard products require welding in order to fit a particular situation. But this is no problem – let us pre-weld your custom-made products.

Pre-assembly

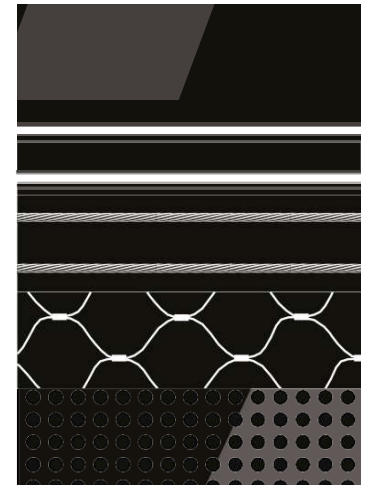

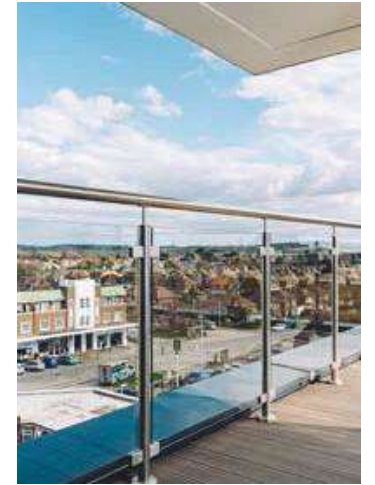

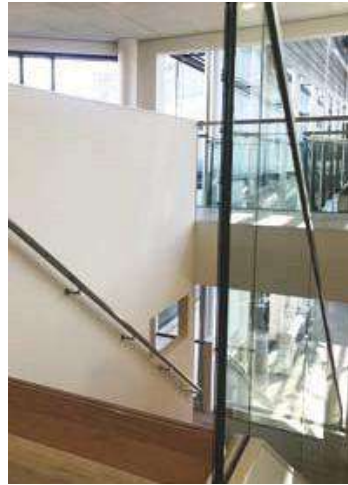

To receive HH-railing products pre-assembled in accordance with your needs, simply order our prefix service. Imagine how much time it would save if, for example, your glass clamps or crossbar holders were pre-installed before delivery.

Choose from our wide range of high-quality components to create the perfect indoor or outdoor glass railing. We offer top-mount and fascia-mount systems, along with specialized solutions for Juliet balconies and parapet walls.

SLIDING SYSTEM

SDS-SET 01

Above application is just for reference, will be changed according to the actual scene.

30x10 installation of square pipe with jumping-proof pillar

30x10 sectional installation of square pipe with jumping-proof pillar

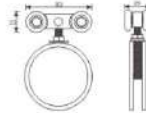

SLIDING ACCESSORIES

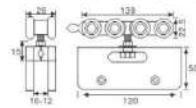

HF-01

Glass door hanging wheel
 Finish: Satin, Polish
 Material: Stainless steel
 Available for: All kinds of glass sliding doors
 Weight bearing: 100kg/8 wheels/90kg/4 wheels

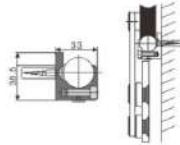

HF-05

Glass hanging wheel
 Finish: Satin, Polish
 Material: Stainless steel
 Available for: All kinds of glass sliding doors
 Max door weight: 120kg
 Matching 4 wheels (max door weight: 100kg)

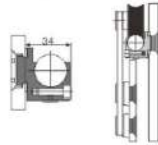

SDS-S 430A/F

Clamp fixing for track
 Material: Stainless steel
 Diameter: $\varnothing 19/\varnothing 25$

SDS-S 430W

Clamp fixing for track
 Material: Stainless steel
 Diameter: $\varnothing 19/\varnothing 25$

SDS-S 461

HANDRAIL FITTINGS

As the region's largest solution provider in stainless steel and allied metal products and solutions for architectural applications, we specialize in design, process, manufacture and supply of Handrail Equipment and accessories. Made from high quality 304 and 316 Stainless Steel, our products are sound and sustainable. Our manufacturing capacity includes Pipe Bend Elbows, Wall Holding, Ground Holding, End Caps, Pipe/ Rod Connectors, Pipe Fittings to name a few. Marketed under brand name H-Fit, our products are distributed/retailed across GCC, Middle East, South East Asia through our offices and strategic retail network.
