ISO CERTIFIED COMPANY

HH-Metal is proud to be an **ISO Certified Company**, reflecting our strong commitment to maintaining internationally recognized standards of quality, safety, and operational excellence. Our certification ensures that all our processes from material selection and fabrication to installation and final delivery are carefully planned, systematically monitored, and continuously improved.

By following **ISO standards**, we ensure consistency, reliability, and efficiency in every project we undertake. This not only enhances the quality of our products and services but also reinforces our dedication to customer satisfaction, workplace safety, and sustainable business practices. Our **ISO certification** stands as a testament to our professionalism, attention to detail, and ongoing pursuit of excellence.

To whom it may concern

13th April 2026

Subject: ALUMIL System Authorized Installer
Project: G+1 RES VILLA at UMM AL SHIEF

Dear Sir / Madam,

This is to inform you that **M/S Home Harmony Metal** is conditionally accredited as Alumil Middle East Authorized Installer for the above-mentioned project, under the following conditions:

- Installer to pursue any related approvals swiftly and without delays, including preparing all related technical/engineering submittals and mock ups, in the highest quality and to the full satisfaction of project stakeholders.
- The installer will strictly adopt Alumil guidelines as per the training conducted / instructions provided to the installer supervisor or other appointed person by the installer, who will supervise installation and receive training on the specific project requirements / positions and who will be continuously employed throughout the project execution.
- The installer will apply strict quality control to ensure that all materials & fabricated/installed products adhere to predetermined criteria and are in line with approved mock ups and related comments.
- In case of any outstanding / delayed payments, ALUMIL MIDDLE EAST accepts no liability, while this authorization becomes automatically null & void, as well as any related guarantees.

We remain at your disposal for any further information/clarifications required.

For ALUMIL MIDDLE EAST,

ALUMIL Middle East DMCC
Office 2907, Mazaya Business Avenue BB1, Jumeirah Lakes Towers, Dubai, United Arab Emirates
Tel: +971 4 4425930, fax: +971 4 4416528
Email: sales.uae@alumil.com, marketing.uae@alumil.com
Company is registered & licensed as a FREEZONE Company under the rules & regulations of DMCCA

Cutting machine-Description					
Manufacture	GEPPAS	Model	GC32000-340	Identification Number	TSH00F22E00227
specification	230 V, 50 Hz & 2000 W	NDT (if any)	NA	Environmental condition	Good
additional information	NIL	Sub-contractor	Jasim Aluminium	Previous inspection date	Not Available
Inspection equipment's	DMM16	References	PUMER 1998		
Defects					
Defect Description	NIL				

All the inspection results relate exclusively to the work ordered or the objects or lot inspected, and the inspection certificate/report shall not be reproduced except in full without the approval of the inspection body and the client. B SAFE has legal indemnity against all losses, accidents, and damages on site arising due to faulty inspection activities during the work. We certify on behalf of B SAFE SAFETY & SECURITY CONSULTANCY that the item(s)/equipment described in this certificate/report is/are

SAFE TO USE

and that the particular details are correct.

B Safe is a third-party inspection Type A Inspection Body.

The item(s)/equipment should be re-tested in case of any major repair and/or alteration at the above details/description.
Please note that the below signature and stamping are generated and approved electronically.

HEALTH & SAFETY PLAN

1. Purpose

This Health & Safety Plan defines the minimum safety requirements for metal fabrication, supply, transportation, and installation works at factories, villas, and building sites. The objective is to prevent accidents, injuries, fire hazards, and property damage while complying with UAE regulations.

2. Scope of Work

Applicable to: - Factory fabrication: cutting, welding, grinding, drilling, finishing - Handling and storage of metal materials - Transportation, loading & unloading - On-site installation of staircases, handrails, balustrades, gates, doors, fences, aluminum and steel works, and associated glass installation - Hot works and work at height

3. Applicable Regulations

- UAE Labour Law (Federal Law No. 8 of 1980)
- UAE Fire & Life Safety Code of Practice
- Local Municipality & Civil Defence Requirements
- OSHA Guidelines (reference)

4. Health & Safety Policy

The company is committed to: - Providing a safe and healthy working environment - Preventing accidents and occupational illness - Complying with all HSE legal and project requirements - Ensuring all workers follow safe work practices and use PPE

Safety is everyone's responsibility.

5. Roles & Responsibilities

Management - Provide resources and enforce HSE compliance

Project Manager / Site Engineer - Implement HSE plan and method statements - Ensure trained and competent workforce

HSE Officer / Supervisor - Conduct site inspections and toolbox talks - Monitor PPE usage and safe practices

Workers - Follow safety instructions and report hazards

6. Key Hazards & Control Measures

Factory / Workshop

- Fire, sparks, electrical hazards
- Controls: machine guards, welding screens, fire extinguishers, good housekeeping

Manual Handling

- Injury from lifting heavy materials
- Controls: lifting aids, team lifting, proper training

Transportation & Handling

- Falling materials, vehicle movement
- Controls: secured loads, trained drivers, banksman

Working at Height

- Risk of falls
- Controls: approved scaffolding, ladders, safety harness

Hot Works (Welding/Cutting)

- Fire, burns, fumes
- Controls: hot work permit, fire watch, extinguishers, ventilation

Glass Handling

- Cuts and breakage
- Controls: cut-resistant gloves, suction lifters, safe storage

7. Personal Protective Equipment (PPE)

Mandatory PPE includes: - Safety helmet - Safety shoes - High-visibility vest - Task-specific gloves - Eye and face protection - Welding mask (for hot works) - Safety harness (for work at height)

8. Training & Communication

- Site induction for all workers
- Regular toolbox talks
- Specialized training for welding, working at height, and equipment operation

9. Emergency Procedures

- Fire: stop work, raise alarm, use extinguisher if trained, evacuate to assembly point
- First aid: first aid box available, trained first aider on site
- All accidents and near misses must be reported and investigated

10. Environmental & Housekeeping

- Proper disposal of metal scrap
- Control dust, noise, and spills
- Maintain clean walkways and organized material storage

11. Monitoring & Review

- Regular safety inspections
- Corrective actions for non-compliance
- Continuous improvement of HSE performance
